## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 2-7,12-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 1-30-2006.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by 3,815,694 to Giustino.

Giustino discloses a tool having an elongated shaft (13) having a cutting tip (15) positioned at one end and a tang positioned at an opposite end, the bit shaft being rotatable about a lengthwise axis to bore an opening in a substrate with the cutting tip. Giustino discloses a chamber (14) located within the bit shaft and positioned between the cutting tip and the tang and providing access thereto. The cutting blade (15) being movable between a retracted position within the chamber and an extended position projecting outwardly from the bit shaft through the opening (fig 1-2).

### ***Allowable Subject Matter***

Claims 8-11 are allowed over the prior art of record.

### ***Conclusion***

Art Unit: 3722

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. This is simply art of interest and was not used to reject any claims in this office action.
